DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on June 11, 2010 has been entered.

Election/Restrictions

2. Claims 18-59 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on July 14, 2005.

Claim Objections

3. Claim 3 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 1 recites an amount of alumina being "less than about 25%". The term "less than about" is

indefinite* ; however, for the purpose of this objection, the term may be interpreted as not more than 25%. Claim 3 which depends on claim 1 recites an amount of aluminum oxide being “about 25%” which includes a value approximately above 25%. Therefore, claim 3 fails to further limit the subject matter of claim 1 upon which it depends.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-8, 10-17, and 60-63 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the phrase “less than about” (in both occurrences) renders the claim indefinite because the metes and bounds of the claim cannot be ascertained. The meaning of “less than” precludes the recited value while “about” includes the value approximately below and approximately above the recited value. Therefore, “less than about” renders the metes and bounds of the claim unascertainable.

Claim 10 suffers the same deficiency of claim 1.

Claims 12 suffers the same deficiency of claim 1.

In claim 60, it is unclear what “treatment chemical” denotes because what is being treated is not defined.

Claim 62 suffers the same deficiency of claim 60.

* See the rejection to this term within this office action.

Other claims are deemed indefinite in view of their dependency upon either claim 1 or claim 10.
